

HYDROCHART 3500 — THE CLEAR CHOICE FOR SHALLOW WATER OPERATIONS

Klein is now a Mitcham Industries, Inc. Company

Hydrographic Interferometry With Exceptional Performance

Klein's HydroChart 3500 provides unrivaled range and resolution performance in a compact, lightweight system. It features IHO SP-44 Special Order bathymetry with full swath coverage to 12 times the water depth or altitude, as well as high-resolution side scan imagery.

For over 40 years, Klein has led the industry in developing innovative solutions for littoral applications and deep water surveys.
