# COMPANY INTRODUCTION

We are a global well established and awarded company. Most of us here at 3Dsurvey are land surveyors by heart. Our lives are intertwined with the surveying community and we all use these connections to continually develop our software, as well as our core support services. These connections are the heart and soul of 3Dsurvey, and the drive behind our commitment to improve a surveyor's quality of life.

Everything we do, all the long work hours, all the support and all the experience, is dedicated to improving the land surveying profession by making our fellow surveyors' work easier, faster, safer and better than ever before. We are proud to be a part of the aerial photogrammetry history, determined to continue being a driving force in developing digital surveying technology, and excited to become the number 1 global surveying software and support provider.

## 3DSURVEY SOFTWARE

**The software suite is designed to fully serve the ambitious and unique needs of your team. It is made to empower you and help you succeed.**

Our comprehensive digital surveying tool is extremely flexible and capable of seamlessly integrating with and complementing your existing equipment, be it aerial, terrestrial or digital.
